The Peer-to-Peer Meeting: an exchange of knowledge, practices and information

Objectives of the Meeting

The overall objective of the P2P meeting is to provide channels of communication, exchange and information between peers and to collect good practices on the topics of Trafficking in Human Beings (THB) and Smuggling of Migrants (SoM) for the benefit of the Action’s stakeholders, namely African, Caribbean and Pacific (ACP) and European Union States, Regional Organisations and Non-State Actors (NSAs). Specifically, the P2P meeting will:

I. Exchange on challenges, lessons learnt and good practices identified through the implementation of activities of the Action with a focus on the recommendations of the ACP-EU Migration Dialogue on both THB and SoM;
II. Showcase the implementation of the recommendations on THB and SoM of the ACP-EU Dialogue at local level;
III. Exchange on actions to be taken to counter trafficking and smuggling in all concerned regions with a focus on cross-border cooperation;
IV. Inform the Thematic Report on THB and SoM and Good Practices Publication that the Action will produce following the event;
V. Feed the ACP-EU Dialogue on Migration and Development with recommendations drawn from concrete examples of the implementation of the Action in ACP countries;

Meeting Format

The P2P Exchange Meeting on THB and SoM will be held in Georgetown, Guyana, from the 21st to the 23rd of March, 2017 and will bring together high-level technical experts on the topics of THB and SoM as well as the ACP-EU Migration Action main stakeholders. Particularly, it will gather: Governments’ // Regional Organizations’ // NSA focal points involved in the ACP-EU Migration Action’s initiatives on THB and SoM.

It will also bring to the table migration experts delivering the Action’s technical assistance itself; ACP Secretariat and EU representatives; representatives of the International Organization for Migration (IOM), other UN agencies and the international community working in the area of counter-trafficking, counter-smuggling and related fields.

The P2P exchange meeting will comprise of a number of plenary and small group sessions. All of the proposed activities are highly participative. Plenary sessions will feature roundtable debates, group discussions and short presentations by the beneficiaries of the Action, policy makers and migration experts, while also leaving sufficient space for spontaneous exchange among participants.
The break-out sessions will allow for in-depth and more technical discussions which will generate recommendations on both topics to be presented to the Dialogue stakeholders in the form of a Thematic Report.

The different sessions will seek to follow-up and deepen the discussions held during the Seminar on Trafficking in Human Beings and Smuggling of Migrants of the ACP-EU Dialogue on Migration and Development that took place the 22nd - 23rd of November 2016 in Brussels, Belgium.

**Methodology**

This P2P meeting aims at encouraging the dialogue between all key stakeholders of the Action with the aim of analyzing, from multiple perspectives, how the challenges in counter-trafficking and counter-smuggling are addressed. Being a technical meeting, and by working in a triangular way so as to bring to the same table governmental officials, NSAs and the international community, the event will strive to come up with ideas and solutions that can be useful for countries in particular and for a wider public in general.

In this regard, through a highly participatory approach, representatives from the participating countries/organizations will be actively involved throughout the sessions and be requested to share experiences through presentations and exercises. The event will bring together around 70 delegates.

The P2P will be divided into several sessions. Each session will have a thematic/contextual introduction and will be followed by a group work session. Space to the delegates will be given to approach the panelist of their interest as to have a closer / customised exchange of knowledge. Small Group Discussions will allow for a more in-depth debate of specific topics, while the Breakout Sessions will divide the group in thematic sessions. A facilitator will then be responsible for drafting a set of recommendations on that specific topic. S/He will introduce the subject and initiate debates by collecting opinions from the delegates. Finally, on the evening of every day Reflection Groups will allow to debrief the day shortly by asking delegates one thing they have learned during that day and one thing they did not quite understand and why. This information will then be shared with panelists, who will have the opportunity of approaching delegates bilaterally and informally.

**The ACP-EU Migration Action (The Action)**

Launched in January 2015, the ACP-EU Migration Action (the Action) is geared towards supporting activities that promote the 2012 recommendations on visas, remittances and readmission, as well as the 2015 recommendations on trafficking in human beings and smuggling of migrants. Payment/cash info for Guyana

Guyana is still a largely cash-based economy. It is recommended to use Guyana dollars (GYD) for payments – paying in USD or EUR may be disadvantageous due to exchange rate differences. Cash can be withdrawn from foreign accounts using major credit/debit cards (Visa/Mastercard) at Scotiabank’s ATMs in Georgetown. Payment with credit/debit cards is common at hotels, some restaurants and bars but not too common at shopping malls and market-type places. The exchange rate is approximately 206 GYD to 1 USD. It is possible to exchange foreign currencies at hotels, banks and cambios (bureau de change). Note: US Dollars are more widely accepted than other foreign currencies.
